SMATHERS DENIES

Makes Statement to National Trotting Association in New York.

MORE TROUBLE ON THE "LOU DILLON" STORY

Alleged "Doping" of the Horse Will Be Sifted to the Very Limit.

NEW YORK, Feb. 15.-The slieged "doping" of Lou Dillon at Memphis in 1904 will be horoughly inventigated by the board of review t the National Tretting association. ection was decided upon yesterday at the Mur my Hill botel, where the blennial congress f the National Trotting association was held t is said that the case will be decided at the ext meeting of the board of review.

Smathers Enters Strong Denial.

E. E. Smathers, who, it is alleged, entered into a conspiracy to 'dope' Lou Dillon, visited Maj. P. P. Johnstone, the president of the National Treating association. He was instructed to submit the request in writing which he did later in the day. The complaint, after rectifus the charges, characterizes them is false and malicious and absolutely groundiest, and demands that they be made the subject of an investigation without delay.

SENATORS FIGHT RATE BILL

Factions Have Abandoned All Thought of a Compromise.

WASHINGTON, Peb. 15-In the Senate committee on Interstate Commerce the line WASHINGTON, Feb. 15—In the Senate Committee on Interestate Commerce the life between the faction which advocates the parage of the House bill and the faction controlling for the court review feature has been drawn so taut that all thought of compromise has been abendoned. All conferences today were between Senators thoroughly harmonized or in position for one position or the other, and have been for the purpose of lining up for a parage at arms. Nearly a hundred amendments to the House bill are pending before the committee and hearly a score of these bear on the judicial review of orders had by the Interestate Commerce Commission. with stubbornness a vote on the bill itself may be delayed for several days, despite the agreement in committee that a vote shall be taken Friday. It is not improbable that both factions may be willing to transfer the contast to the floor of the Senate and that no roll-call will be had in the committee.

Trying to Corral Votes. If outward appearances may be believed in he less of the manipulations to corner votes, he Hepburn hill cannot be taken to the com-nities by a majority. This is not conceded be benature Dolliver and Clapp, although they idmitted tonight that they have not a ma-ority of the committee votes corralled for the fourse bill in its present form. They asserted, however, that they will not recent an amendment of my characteristics. They asserted however that they will not could an amendment of any character spefically providing for judicial review of the
clares of the commission and that they will
ting out a minority report if a majority of
the committee cannot be secured. On the other hand, Senators Aldrich, Forter, Elkins, Kean and Crane, the leaders of
the faction demanding less radical legislation,
sist that they have enough votes in the
minister to amend the bill. They say,
vertheless, that they do not purpose to subtiute a messaure for the House bill, nor to
toot an amendment which would delay an
der from the commission from becoming efcitive.

Provision of Hepburn Bill. Briovision of Hepburn Bill.

Under the Hepburn bill it is provided that an order of the commission shall go into effect within thirty days. They say that while it is not contemplated that a law shall be passed which shall take away the right of common carriers to apply for an injunction on the ground that the rate fixed is conflectory, the thirty-day provision will have the effect of forcing injunctions, as this limited time will not permit of a review that would determine whether the order is conflectory.

Conservative forces expect to reach an agreement tempers to compromise will haston an agree-

agreement tomorrow. The abandonment of at-tempts to compromise will hasten an agree-ment on a court review feature. Senator El-cins today proposed such an amendment in the committee and it was discussed for some time and passed over to join a dozen or more others on the same subject. It is very similar to the court review feature of the rate bill which he introduced resterday.

GAVE LOU DILLON BELLADONNA

Sensation Sprung by Affidavit Man Regarding Gold Cup Race.

SAN FRANCISCO, Feb. 15.—A sensational similarity was made here today in connection with the race at Memphis between Maj. Delmar and Lou Dillon. The amidavit is sworn to by A. H. Fehr, a veterinary surgeon, who claims he was the official veterinarian of the Memphis Racing association at the time the morses contested for the \$600 gold cup.

Sworn Statement by Fehr.

Sworn Statement by Fehr.

In his sworn statement Fehr says: "At the time of the trotting race meeting at Memphis, when the celebrated race between Maj. Delmar, belonging to E. E. Smathers, and Lou Dilled' the property of C. K. G. Billings, was trotted I was employed in the position of official veterinarian of the association and was also in the employ of C. K. G. Billings, "After the first heat between Maj. Delmar and Lou Dillion was trotted I was summoned by Murray Howe in a great burry. Mr. Howe seemed excited and the first thing he said to me was that Lou Dillion had an attack of the 'thumps,' or what we technically term in the profession epasmodic contraction of the diaphragm.

Mare Closely Guarded.

Mare Closely Guarded.

'I went to the stall where the mare had been taken immediately after the first heat. She was closely guarded by a special officer and Murray Howe, who was at that time the personal representative of Mr. Billings, directed me to treat the mare for the thumps.' I examined her and found nothing wrong with the mare more than some pervoueness such as any herse would show after coming out of a shard race. Mr. Howe insisted that the mare should be treated for the thumps,' and of course it is commonly known that belladonna is the drug used in such case. It is sing common knowledge that such a drug will ocaden any animal and kill speed. Therefore, acting under orders, I administered an alternal dose of the drug which was sufficient to kill the speed of the strongest and fastest horse in the world for the time being. Under those circumstances it was impossible for Low Dillon to with the world for the time being. Less Dillon to win the Memphis cup.

TROTTING CONGRESS BUSY.

Adopt New Rule Regarding Drivers and Elect Officers.

and Elect Officers.

NEW YORK, Feb. 15.—The National Trotting association at its twenty-third blennial congress, held today, made many important changes in its rules to govern the trotting turn for the coming year. The adoption of a new rule to prevent drivers or riders from resorting to the use of the watch while in a race led to an animated discussion, but was finally adopted by a vote of twenty-four to all.

Another new rule in regard to drivers and riders which was adopted, was as follows: "A fiver or rider cannot be expelled from the National trotting association for the non-payment, except where he is the nominator or owner of the horse."

On the recommendation of the rules committee a rule was adopted allowing any circuit or
tracks of five or more members to have its own
board of stewards.

The following officers were elected: P. P.
Johnston of Lexington, Ky., president; Morgan
G. Buikeley of Hartford, Conn., first vicepresident; N. L. Smith of San Francisco, second vice-president.

The district boards elected include: Pacific
district, A. B. Spreckels, John C. Kirkpatrick
and J. P. Held, all of San Francisco.

Great Preparations Being Made for the Handling of the Traffic.

THOUSANDS TO GO TO CALIFORNIA

Railroads Have Ordered Extra Equipment to Cope With Increased Travel.

LOS ANGELES, Cal., Feb. 15 .- The railroad eaching southern Californa have made great reparations for handling the colonist trame bleb begins tomorrow from all Eastern ers, when the reduced one-way rates go into from all central points, including Chicago, St Louis and New Orleans. This rate will be in effect from February 15 to April 1. Within fortnight there will have started for Los An geles not fewer than 20,000 persons, according to estimates of the three railroads entering

Extra Equipment Ordered.

Extra Equipment Ordered.

The Santa Fe has ordered from forty to fifty extra cars to be used during the first two weeks, with more orders expected daily. All these are in addition to the regular equipment, which is able to handle many more persons than during the ordinary truffic. The Sail Lake road has received advices to double its regular complement of cars on its three principal feeder lines from the East, thus providing facilities for handling 500 to 600 persons during the first few days of traffic. The Southern Pacific expects to carry between 40,000 and 10,000 persons, the Santa Fe between 15,000 and 18,000 and the Salt Lake more than 12,000.

Preparations in Salt Lake.

During the existence of the colonist rates the Rio Grande expects to handle some 20,000 persons from the East bound for the West and Northwest and preparations are being made accordingly. Extra cars have been forwarded and three extra through tourist cars have been commissioned, routed from Denver to Los Angeles over the Gould and Clark roads. A New Arrangement.

The Sait Lake Route will sell tickets from sait Lake direct to San Francisco. A consection will be made with the Santa Fe and saggett and the run to Frisco made on its racks.

O. S. L. Making Preparations. The Oregon Short Line, Union Pacific and outhern Pacific are also making preparations o handle the traffic. That the volume of uniness will be immense there is no gain-sying. Last year some 20,000 colonists passed prough the Coden gateway, and it is considered that this number will be it exceeded this year.

TUNNEL UNDER SEATTLE.

Union Pacific and Canadian Pacific to Build One.

SEATTLE. Wash. Feb. 1b. Operating ether the Union Pacific and Canadian Facili build a tunnel under Seattle, paralle he big bore of the Hill roads, which too one bote of the Hill roads, which will be formally opened some time this spring. It the interests of the Canadian Pacific James A. Moore will apply next week for a franchise for an electric road from Scattle to Vancouver. The Union Pacific, under the name of the Washington Northern railroad asked for a franchise entering the city from the south last night. The two lines will cooperate in a fight against the Hill systems.

CONGESTION IS REMOVED.

Freight Traffic on Rio Grande Moving With Facility.

The congested condition of the freight yards on the Rio Grande Western between this point and Grand Junction is now virtually removed. This condition has existed for some time, and much inconvenience has been caused. The addition to the motive power department of six locomotives, on loan from the Denver & its Grande, has contributed much to the relief of this condition and traffic is now being carried on with greater facility.

UNION PACIFIC DIVIDEND.

Three Per Cent Declared on company's Common Stock.

NEW YORK, Feb. 15.-The directors of the Union Pacific railroad tonay declared a semi-annual dividend of 3 per cent on the com-pany's common stock. This is an increase of haif of one per cent as compared with the last semi-annual declaration. The regular semi-annual dividend of 1 per cent was de-clared on the preferred stock.

Effusion by Railroad Poet.

One of the boys in a local railroad office is especiable for this effusion. He makes pro-use apologies to the author of "Everybody" Vorks But Father, "wheever he may be: Everybody works in Utah to pay the tithing big; Joseph Smith, the prophet, collects them in a

Everybedy works in Utah but-Joseph F. Smith. The "Bottomless Lake."

J. U. Haley, general freight and passenger J. U. Haley, general freight and passenger agent, and Duane L. Bilss, Jr., manager of the Lake Tahes Railway & Transportation company, arrived in the city yesterday on their way to Denwer. They are on a vacation and never omit an opportunity of sounding the praises of the 'bottomiess lake" and its surrounding beauties. The lake season does not begin until May 15 and continues until October 15, stop-over privileges being given by the Southern Pacific at Truckes.

An Oasis of the Desert.

J. A. McKay, formerly clerk and operator in the city office of the Sait Lake Route, is now agent at Carp. Nev. Agent McKay occupies a nice building, and, lacking company, he has improved his time by beautifying the station grounds by planting native cacti and palms, until now it is one of the cases of the desert. Editors Have Arrived.

The members of the Montana Press associa-tion have arrived safely in Los Angeles, after a heated discussion en route as to "beautiful characters." Kenneth C. Kerr, who accompa-nied them as far as San Bernsardino, returned to the city Wednesday morning. Wreck on Park Branch.

A slight wreck on the Park City branch of the Rio Grande occurred yesterday, but no one was rigured and be serious damage done. The evening train from the Park was de-layed about three hours, arriving here about 8 50.

Railroad Notes.

C. P. Pruitt, traveling freight agent of the Maj. E. K. Hooper of the D. & R. G. is re-writing his famous pamphlet descriptive of "The Natural Resources of Utah and Colo-rado."

Sixty carloads of the for the Western Pacific are at present stored in the Rio Grunde yards. This is in preparation for the real work of con-struction, which will begin with the opening of spring.

Ogden was invaded yesterday by the follow-ing local railroad men. R. W. Owens of the Wabash, Ed Drake of the Frisco system, Frank T. Vincent of the Erie and J. A. Foley of the Illinois Central. of the Illinois Central.

'The Beauty and the Benet' organization will be carried to Ogden this morning by special truin over the Short Line. After playing an engagement there fought, the company goes by special to San Hernardino over the Sait Lake Route, that road sending its equipment to Ogden.

A TRAINED NUR

After Years of Experience, Advises West Regard to Their Health.

Mrs. Martha Pohlman of 55 Chester Avenue, Newark, N. J., who is a graduate Nurse from the Blockley Training School, at Philadelphia, and for six years Chief Clinic Nurse at the Philadelphia Hospital, writes the letter printed below. She has the advantage of personal experience, besides her professional education, and what she has to say may be absolutely relied

Many other women are afflicted as she was. They can regain health in the same way. It is prudent to heed such advice from such a source. Mrs. Pohlman writes:

mrs. Poniman writes:
"I am firmly persuaded,
after eight years of experience
with Lydia E. Pinkham's
Vegetable Compound, that it
is the safest and best medicine
for any suffering woman to
use."

for any suffering woman to use."

"Immediately after my marriage I found that my health began to fail me. I became weak and pale, with severe bearing-down pains, fearful backaches and frequent dizzyspells. The doctors prescribed for me, yet I did not improve. I would bloat after eating, and frequently become nauseated. I had pains down through my limbs so I could hardly walk. It was as bad a case of female trouble as I have ever known. Lydia E. Pinkham's Vegetable Compound, however, cured me within four months. Since that time I have had occasion to recommend it to a number of patients suffering from all

time I have had occasion to recommend it to a number of patients suffering from all forms of female difficulties, and I find that while it is considered unprofessional to re-ommend a patent medicine, I can honestly recommend Lydia E. Pinkham's Vegetable Compound, for I have found that it cures female ills, where all other medicine fails. It is a grand medicine for sick women." Money cannot buy such testimony as this-merit alone can produce such results, and the ablest specialists now agree that Lydia E. Pinkham's Vegetable Compound is the most univer-sally successful remedy for all female

CORN IS SUPERIOR TO PEAS FOR LAMBS

University of Wyoming Makes Experimental Test of Animal Feed.

LARAMIE, Wro., Peb. 15 .- The growing of field peas on the Laramie plain, which has been discussed at some length recently, some holding that the conditions here are similar to those of the San Luis valley in Colorado, where the business has reached huge proportions, received a sort of check with the return from Omaha of Prof. George E. Morton, assistant in animal industry at the experiment station of the University of Wyroning. Some time ago the director of the similor, Prof. B. C. Buffum, secured 200 lambs for experimental feeding, the lambs being as near alike in size and breeding as possible. These were separated into two lots of 100 each, the bunch averaging fity-eight pounds. Half were put on corn and alfalfa and the other on thirteen acres of field peas, the peas being sown and grown about as they would be under ordinary conditions of farming on the Lararfine plains.

Last week the 200 lambs were sent to the Omaha market, Prof. Morton accompanying the shipment and superintending the sale and slaughter of the animals.

Corn Feeders Win. been discussed at some length recently, some

Corn Feeders Win.

Contrary to expectations and the hope of some of the enthusiasts of the plain on the matter of field peas, it was found that the corn-fed lambs were the fatter, averaging eighty-five pounds and selling for 57.10 per hundred pounds. The pea-fed lambs averaged only seventy-six pounds and sold for 58.55. Mr Morton was gratified that the corn-fed lambs brought the top of the market at Omaha, the purchaser declaring that they excelled in quality any shipments received from Colorado.

Prof. Morton found that the thirteen acres of peas did not make as good showing as the station had hoped. The coming season another teat will be made, the peas given a little more care in planting and cultivating and the lambs a little more care in feeding, when it is hoped to do much better. It was found that the pea crop gave too much pod and pea for the amount of roughness, the corn-fed lambs having the advantage of the best quality of affaira hay in addition to the corn.

New Rifles for Cadets. Mother takes in washing to keep this big old

New Rifles for Cadets.

Much to the gratification of the military commandant at the University of Wyoming. Capt John W. Heavey of the Eleventh United States infaniry, the chief of the ordnance department, has notified Senator F. E. Warren of Wyoming that he has approved the latter's recommendation for an exchange of the present Springfield rifles used by the corps of cadets at the university for Krag-Jorgensen, and that the exchange will probably be made by the time of opening the fall term of the university.

The university now has a couple of modern breech-loading cannon for the use of the artiflery squad in place of the obsolete pieces loaned at first. Capt. Heavey is preparing to take the two companies of cadets into camp for a few days in the spring, having been promised enough camp equipage from Fort D. A. Russell for the purpose. New Rifles for Cadets.

Weather Bad for Ice.

Weather Bad for Ice.

The present spell of mild weather is proving embarrassing to the ice contractor for the Union Pacific, and work was begin yesterday upon a new reservoir on the Laramie river, where it is hoped to have water enough by next winter to furnish ice for the company as needed. The contractor has orders shead for several thousand tons he cannot harvest now the warm weather proventing the river from freezing over and making a new crop where he has already harvested one crop. A large reservoir will be hollowed cut avoiding the necessity of damming the river and filled with water, so that the cutting of ice thereon will proceed while new ice is forming on the river. Laramie is now the center of the ice production on the Union Pacific, several large ice houses having been already filled and others awaiting the coming of the second crop.
